

Round Body Hardened Steel

Now in KIK, SFIC & LFIC

The CCL Security Products Sesamee Round Body SFIC & KIK Series padlocks are heavy duty and provide high security.

Each lock features dual locking stainless steel ball bearings, and the lock comes with a Key Retaining accessory to easily adapt every item.

The 936/937 SFIC & KIK Series comes standard with a 1" or 2" Alloy Shackle with a 7/16" diameter for extreme security against bolt cutters. Our Padlocks feature quick change shackles. Each can be easily adapted by a push of a pin and turn of the key allowing for ease of use. Change the shackle height to meet your needs.

The SFIC version can work with any 6 or 7 pin IC Core. The KIK version comes prepped for Schlage® and includes the accessory pack needed to make use of your off the shelf KIK Core.
