other colors available upon request and are subject to minimum order

- Equipped with a convenient 3-dial, easy-to-set combination of your own choosing
- Has a flexible cable, allowing TSA screeners to inspect and re-lock baggage without damaging the lock
- Flexible cable resists abuse from airport luggage handling equipment and is built with a 1-1/8 inch (30mm) wide durable metal frame.
- Unique status changing window alerts you if your lock has been opened with a TSA secured tool, or by an unauthorized person using a counterfeit device.
- Product of Taiwan; designed in Wheeling, Illinois
